

Saving Customs Duties by using Preferential Arrangements

Learn and improve your knowledge on preferential process management to save customs duties and avoid duty payments for your customers, improving the competitiveness of your products. The webinar will focus on "Preferential Arrangements in EU Free Trade Agreements".

Seminar Target:

You will gain the knowledge on how to develop and apply tools that enable you to differentiate between product specific rules of origin, enhancing transparency in monitoring the use of trade preferences, and applying trade facilitation concepts to rules of origin certification procedures.

Content:

- Global Preferential Schemes
- Examining the Impact of Rules of Origin on Preferences
- Establish and determine the Proof of Origin under EU trade agreements
- Application of the tariff shift rules and other Determination and Verification Processes
- Issuance Procedures

Target group:

English speaking managers in purchasing, sales, logistics or other departments, who would like to learn, understand, and improve their competencies on how to save customs duties and gain a competitive advantage for customers by avoiding costs.
