

## Webinar

### Classification of Goods into the EU-Customs Tariff

There are often uncertainties regarding the determination of the Customs Tariff Code. The seminar provides you with hands-on knowledge to gain confidence in your day-to-day work on the classification of goods.

#### Aim of the seminar:

Professional and regulation compliant classification of your goods, based on the general rules. Process-security when determining your Customs Tariff Code.

#### Content:

- Structure of the combined nomenclature, Customs Tariff Code
- Content of the EU-Customs Tariff System
- General Rules
- Joint training with practical examples
- European Binding Tariff Information Database

#### Target group:

All employees who are dealing with customs matters. From trainees to professionals!
