

Webinar

Import Customs and Trade Management into Europe

Improve your knowledge on customs processes and legal compliance in order to avoid surprises and unforeseen duty payments due to customs audits.

Aim of the seminar:

You will get practice-based learning of legal customs procedures and information on problem solving and process optimization based on your new understanding of customs processes.

Content:

- General Customs Import Procedures within European Customs Legislation
- Management of Customs Import Declarations with EORI No.
- Importing through Freight Forwarders
- Roles and Responsibilities
- Tariff Classification
- Customs Valuation

Target group:

English speaking managers in purchasing, logistics or other departments who would like to learn, understand, and improve their competencies on how to import goods into Europe without utilizing the services of a freight forwarder.
